The Focus on Innovation 2015 Scholarship

Focus School Software leads the way with its Student Information Software (SIS) and Enterprise Resource Planning (ERP) programs, and uses cutting edge development tools to bring its clients the very best products on the market today.

Our clients have recognized our quality and innovation. Now we want to show our appreciation and return the favor.

FOCUS KNOWS TECHNOLOGY AND EDUCATION

Focus School Software is awarding five $1,000 scholarships to Focus K-12 schools that lead the way in computer science education and show an ability to use technology in creative, innovative ways. The scholarships will be awarded to the schools that have developed outstanding, inventive means to get their students excited about computers and new technology, whether through its curriculum, extracurricular activities, awards or other offered incentives, community involvement, or any other avenue that has lead to unique technology learning outcomes. The winning schools can award the scholarships to any of their students; Focus aims to assist its schools in inspiring a passion for computer science, technology, and student learning.
